Description

It represents a mixture of **salts** with differentiated grain size cleverly combined with **natural oils** and **essential**. It explicates four important effects: peeling effect, mechanical, gentle, thanks to **natural exfoliation** given by massage; reduction effect, thanks to the action of **ion-osmotic salt**, reduces water retention; reactivating effect, due to the presence of **essential oils of orange and lemon**; velvety effect, from the presence in formula of a particular mixture of **vegetable oils**.
